								Helio,
							1	I'm currently conducting an environmental site assessment on the Bondale Apartments property located at
								. The property currently consists of 17 two-story apartment buildings
								that were constructed in the early 1940s as naval office barracks. Based on my research thus far, the current
								Bondale Apartments was part of the "East Camp" expansion to the Norfolk Naval Base. A google site plan
								depicting the subject property in relation to vicinity properties is attached for your convenience.
								 Prior to the construction of the existing apartment buildings by the Navy in the 1940s, was the property undeveloped wooded land or was it utilized as farmland (for agricultural purposes)?
								O Donald Control of the Control of t
								Do you have any knowledge and/or documentation as to how the apartment buildings were originally heated upon their construction? Based on information obtained from the Fire Marshal's Office, the subject
								property previously contained three (3) heating oil USTs (approximately 6,000-gallons in capacities); however,
								no additional information regarding these USTs was on file.
								According to information provided by the current property owner (Bondale Corporation) and on site
								observations, an abandoned oil line appears to be located on the western boundary of the property. In
								addition, a property survey, dated December 1961 confirms the presence of the abandoned oil line. I have
								attached the property survey and have outlined the abandoned oil pipeline in red for your convenience. I'm trying to determine the history of the pipeline. Any information that you can provide regarding the following
								questions would be greatly appreciated.
								Was the oil pipeline installed by the Navy in the early 1940s during the construction of the East Camp expansion?

DON-NAVY-2014-009869	Request		09/18/2014	09/18/2014	02/17/2015	01/16/2015	Closed	Records pertaining to self
		1						According to a January 16, 1947 GHQ/SCAP report by the Counter Intelligence Corps (CIC) of the XXIV
		1						Corps (Seoul, Korea): On August 12, 1945, the Japanese at Hungnam, North Korea (then Konan, Korea)
		1						placed some sort of explosive in a small boat, which they directed toward a target vessel 30 km at sea and
		1						detonated it. According to eye witnesses, the explosion produced a large mushroom cloud.
		1						
		1						Although the CIC report acknowledged that Japan was conducting atomic research at the chemical plants at
		1						Konan at the time, including the use of uranium and heavy water, they could not identify the nature of the
		1						explosion; that is, whether the explosion was nuclear or caused by a conventional high-explosive.
		1						
		1						An nuclear explosion at sea, even a fizzle, would be expected to have released residual radioactive materials
		1						some with long half-lives such as strontium-90 and caesium-137.
		1						some with long train-rives such as strontium-90 and caesium-157.
		1						
		1						I am requesting any and all tests for radiation at sea in the vicinity of the Port of Hungnam, North Korea,
		1						centered approximately 30 km from shore, between August 12, 1945 and the present. If tests for radiation
		1						were conducted, I would like copies (in color, if applicable). If no test for radiation was conducted between
		1						those two dates, I would like a statement to that affect.
		1						
		1						I have attached a 1999 newspaper article by Tokyo Shimbun (in Japanese) that confirms the explosion at sea
	1			1	l	I		was "like an A-bomb." The author of the article, a Japanese professor, discovered the GHQ/SCAP report at

								FOIA case:
								I was researching on-line and found this.
								Airtec, Inc., California, Md., is being awarded a \$9,477,860 modification to a previously awarded firm-fixed-
								price, indefinite-delivery/indefinite-quantity contract (N68335-13-D-0010) for intelligence, surveillance, and
								reconnaissance (ISR) services in support of the U.S. Southern Command. The contractor will provide ISR
								services utilizing two contractor-owned, contractor-operated aircraft, with government furnished property
								previously installed on the aircraft. Work will be performed in Bogota, Columbia, and is expected to be
								completed in September 2014. Fiscal 2014 operations and maintenance, Army contract funds in the amount
								of \$751,459 will be obligated at time of award, all of which will expire at the end of the current fiscal year. The
								Naval Air Warfare Center, Lakehurst, N.J., is the contracting activity.
								http://somd.com/news/headlines/2014/17644.shtml
								MAG-DS is in bed with AirTec. AirTec may actually own the aircraft I was flying.
								I would hope that MAG could not make a contract disappear while they are getting paid to support it.
								**TORPS Requested in the orginal FOIA request do not belong to this contract nor is the primary contractor
								the same.
								Original rquest:
								Request a copy of the Counter-narcotics Surveillance System (CSS) contract TORP 0249 and TORP 0072

Therefore, we will not be needing your or your wife's statement for the investigation. The IRS stated they would be getting in contact with you when they require your information and testimonial statement. If you have any questions from this point forward pertaining to the investigation please refer them to the IRS hotline. Additionally, a copy of your documents are at CID. I will leave them with a case agent here at the central office (Camp Horsen) with instructions to relinquish them to you. Once the report is ready, you can submit a FOIA request for the report and it usually doesn't take
								longer than a week.
								June 12:

								The report is complete now. You can submit the FOIA request as soon as you're ready. I believe there is a FOIA coordinator through MCB but I'm not entirely sure. However, once you forward the request the report will come back to you for utilization.
								So I went to PMO to request the FOIA and they sent me to their administrative office. Then admin sent me to
								the SJA Office in building 1 on Camp Foster and said to speak to 6 (6). Then 3 said he couldn't give me a copy of the report because it's a CID report and not a PMO report. So (6) (6) agave me this
								link, Http://www.ncis.navy.mil/ContactUs/Pages/PrivacyActRequests.aspx, and said to submit this FOIA
								request to the office that's located stateside and wait approximately 20 days before I can receive it. I mailed it

								I am being (wrongfully?) civilly sued by an alleged Naval Veteran, (a) (b) (c) . I ve been given reason to consider if he is a veteran, if he has an honorable discharge from the our Navy as a matter of establishing his character to the Judge(s) or (could be jury). I have honors. I am representing my self pro se in this civil case and even though I am indigent, counsel is only provided for criminal indigents. It would help me to help the judges understand what I'm dealing with here. I require a yes or no answer. I would like to know if his discharge, if dishonorable, involves drug use or theft crime or crimes too(if it is legal to reveal) to be used as part of my pro se defense. He is also suing another single woman in the building he is running. If he is criminal in nature, it would help both of us to know it. Here is the link to my appeals case. (a) (b) Sincerely,

								I am seeking construction information about two locations. First, USN 835 in Gtmo on top of John Paul Jones Hill
								Was there asbestos in the building, (which has subsequently been razed for the turbines). I was stationed
								there as a member of Company L, Marine Support Battalion, Naval Security Group in 1971.
								Second, as a member of the 3rd Special Security Comm Team with MWHS1, 1st Marine Air Wing, I spent a
								lot of time in the secure comm facility in which we operated. The team was at the MCAS lwakuni, Japan and I
								was there in 1972. Likewise, was there asbestos used in the ssct comm center? This is important as it may help to explain some health problems I have been experiencing.
								This is important as it may not to explain some nearth problems thave been experienting.
								These were both soundproofed communications facilities, in which signal emissions were contained so as to
								not leak outside the center.

								Back around 1969/1970; I was stationed at the U.S. Navy Boilerman School in Philadelphia, PA. I was giving
								myself shots with needles provided by the local Navy doctor for U.S. government issued mediation. A first class medical tech called (NIS). I was given a ration of crap by two NIS agents on three to four occasions. I let
								them (NIS) examine my arms and various other places on my body, looking for drug use. All they had to do
								was look in my medical record. I finally told them to take a hike, get lost. They did not. They would not tell me
								if they were naval officers, enlisted or civilians. I then contacted JAG and they (NIS agents) were advised to
								charge me with something or get lost. I thought they got lost, they did not. When I arrived at my next command, the prospective C.O. had a report from the NIS agents regarding my
								investigation while in Philly. I committed no crime and they had no right screwing over me as they did. I was
								not permitted to see the report on me.
								I am requesting a copy of the NIS report that was sent to my C.O., the names and status of the two NIS
								agents were they officers, enlisted or civilians.

DON-NAVY-2014-008620	Request							

								Hi,
								Landanian to abtain a second of a second of decreased antided INMINES. Occasions and Astrictica Management
								I am looking to obtain a copy of a specific document entitled "Military Operations and Activities Necessary for
								National Security," dated 20 September 2013. This document is mentioned in a Secretary of the Navy Memorandum to the Assistant Commandant of the Marine Corps regarding "Determination of FY 2014
								Excepted Activities," dated 2 October 2013. I have attached a copy of this memo to this request. This memo
								can also be found online here:
								http://www.mcieast.marines.mil/Portals/33/SecNav%20Exception%20Approvals%202%20Oct%2013.pdf
								While the document appears to have been generated by the Office of the Secretary of Defense, a previous
								FOIA request to that office generated no responsive records. OSD's FOIA officers suggested that I should submit an identical request to the US Navy, as they might have the record in question. So I am now making
								this request as recommended.

								Odda diramodni,
		1		1				Pursuant to the federal Freedom of Information Act, 5 U.S.C.§ 552, I request a copy of all reports related to the NCIS into the death of a Marine gate sentry shot in the chest April 8 by a fellow sentry at the main gate of Camp Lejeune, N.C.
		'		1	'	'		I also request reports or memos related to the weapons and safety protocols observed by Marine sentries at the time of the shooting.
		1		1				Please include any endorsements of report, addenda or attachments to the investigation report, and memos related to the investigation. This request also should include any multimedia materials including but not limited to photographs and audio or video recordings.
1		1						As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information to explain the context of this death and the circumstances that permitted it to happen. This information is sought on behalf of Marine Corps Times for dissemination to the general public.
								Release of the information is in the public interest because it will contribute significantly to public understanding of sentry safety protocols and because this incident has already been covered broadly in the national media. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I reserve the right to appeal your decision to withhold information or deny a waiver of fees.
		1		1				As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. Please release it in a timely fashion as soon as next-of-kin notifications have been completed.

								I am requesting a copy of the tape recording of communications between myself as Pilot In Command of N567ET and the ATC Controller at Pt. Mugu NAS.
								The time period involved was between the hours of 0900 & 1000 local (Pacific) on Friday, March 21, 2014.
								There were 2 non-military frequencies being used by Point Mugu ATC at that time and I don't remember to which one I was assigned; but I assume recordings were made on both as a single controller was simultaneously handling both 124.7 & 128.65.
								I declared an emergency & the controller proceeded to relay instructions which made survival potentially less likely. I was able to land successfully in spite of the controller's attempted interference. Later, upon contacting the Base Commander, I was informed that those instructions superseded my declared emergency. In other words, my certificate may have been at risk. Pont Mugu Command's response to my inquiry of the facts differed greatly from my recollection of the events as well as the recollection of my passenger. Pont Mugu Command continues to assert that their instructions superseded my emergency status.

								Subject: Request For A Copy Of Point Mugu NAS ATC Tape of Conversation During An Emergency
								August 1, 2014
								Commander, Navy Installations Command
								Commander, Navy Installations Command ATTN: FOIA Coordinator
								716 Sicard Street SE Suite 1000
								Washington Navy Yard, DC 20374-5140
								I am requesting a copy of the tape recording of communications between myself as Pilot In Command of
								N567ET and the ATC Controller at Pt. Mugu NAS.
								The time period involved was between the hours of 0900 & 1000 local (Pacific) on Friday, March 21, 2014.
								There were 2 non-military frequencies being used by Point Mugu ATC at that time and I don't remember to
								which one I was assigned; but I assume recordings were made on both as a single controller was simultaneously handling both 124.7 & 128.65.
								simultaneously handling both 124.7 & 128.65. I declared an emergency & the controller proceeded to relay instructions which made survival potentially less
1								likely. I was able to land successfully in spite of the controller's attempted interference. Later, upon contacting
								the Base Commander, I was informed that those instructions superseded my declared emergency. In other
1								words, my certificate may have been at risk. Pont Mugu Command's response to my inquiry of the facts
								differed greatly from my recollection of the events as well as the recollection of my passenger. Pont Mugu
								Command continues to assert that their instructions superseded my emergency status.
								I have filed a report with the local FAAST Safety Team to review this matter and am requesting a copy of the
								tape for a meeting in the near future.
DON-NAVY-2014-008359						09/16/2014		Thank you for your gracious assistance in this matter.

On July 25, 2014, the NAVY announced: "Secretary of the Navy Ray Mabus announced today that Naval Facilities Engineering Command (NAVFAC) Pacific awarded a contract to Pacific Energy Solutions LLC, for the procurement of electricity produced from renewable energy generation systems. "This is a large project with 10 roof top photovoltaic systems and four ground-based or elevated systems, built on three different bases," said Secretary of the Navy Ray Mabus. In the first year alone we expect that these systems will save the taxpayers \$1.6 million. That's the equivalent of the electricity that can be generated from \$4,000 barrels of oil here in Hawaii. It's the amount of electricity needed to power more than 5,000 average homes here. And that's just in the first year. This program will be generating those savings for decades. The work we are doing here will serve as a model for other projects around the world." I respectfully request a copy of all records, electronic or otherwise, that were generated to research the cost, savings, and implementation of this array. Please include all emails, letters, reports, etc. that may pertain. Thank you so much for your time, and I am very much looking forward to your response. Sincerely, John Greenewald, Jr.

								Prusuant to the receral Freedom of Information Act, 5 U.S.C.Ş 552, I request a copy of all reports related to the Naval Criminal Investigative Service investigation into an 2012 insider attack in Afghanistan that resulted in the deaths of three Marines: Lance Cpl Greg Buckley, Cpl. Richard Rivera, and Staff Sgt. Scott Dickinson, all of Headquarters Co., 3rd Marines.
								Please include any endorsements of the investigating officer's report, addenda or attachments to the investigation report, and memos related to the investigation. This request also should include any multi-media materials including but not limited to photographs and audio or video recordings.
								As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information to explain the causes for the deadly attack as well as who has been held accountable and any follow-on actions the Marine Corps has opted to take. This information is sought on behalf of Marine Corps Times for dissemination to the general public.
								Release of the information is in the public interest because it concerns a deadly insider attack that killed Marines and has received national news interest. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I reserve the right to appeal your decision to withhold information or deny a waiver of fees.
								As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request.

								This what i just sent to Fox ivew;
								I was recently employed at BIW Shipyard in Brunswick Maine. I was working on the Navy newest Destroyer
								DDG 1000 Zumwalt class. I was pointing out to management errors and was told not to fix because it would
								cost to much for the Shipyard to fix. Told to go sit down and move on to next job. This has happen several
								times and finally had to quit because I didn't want to be a party to it.
								When I quit I sent a email to my supervisor, manager, Director, and Vic President of engineering explaining
								why I was quitting and listing all of the things I was ask to overlook. They preach quality but schedule and
								budget is king. I do have a copy of what I sent on BIW email system to vet the accuracy of the story.
								I would like this story to come out for serval reasons, 1. They are wasting money of the tax payers, 2. The ship
								is not safe if it sails with these and other items are not corrected, 3. Just not right to try and make profit off of
								the Navy when they are paying for it to be right. Finally there in the running for a new contract from the Coast
								Guard (OPC) that's is supposed to be awarded in the very near future.
								Calard (G. C) make to capped to be available in the very mean ratio.

								Greetings from North Carolina!
								Request for information regarding United States Navy Fire Protection Vehicles.
								My name is Peter Brock and I have been collecting data on military fire protection vehicles (apparatus) for more than 30 years. Recently retired as an Assistant Chief from the Raleigh, North Carolina Fire Department I have always held the history of the United States Fire Service in high regard.
								I am requesting a current roster of the fire apparatus in the United States Navy inventory. This would include the Navy registration number, vehicle type (engine, ladder, rescue, ARFF, brush, etc), vehicle capacities (fire pump size, water tank size, foam tank size, etc) and the current facility assignment. I have attached to copies
								of my work for your review and clarification of my request.
								I shall use this information for historical purposes. Some of my data dates back to the 1950's and reflects the historical portion of the United States Navy Fire Protection vehicles. My research includes all branches of the Department of Defense and I would be happy to share any of these documents on request.

1				l		l		Dear FOIA Officer:
				1		1		Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of any
1				l		l		video footage, still images, and sound recordings related to the sinking of the USS Peterson (DD-969) in
1				1				February 2004.
				1				I agree to pay reasonable duplication fees for the processing of this request.
1				l		l		Through this request, I am gathering information on the sinking of the USS Peterson (DD-969) in February
1				l		l		2004. This past week, a team from 60 Minutes was on board the EV Nautilus with explorer Bob Ballard when
1				l		l		the wreck of the USS Peterson was identified. Footage of the Nautilus discovery can be viewed at the
1				l		l		following web address: www.nautiluslive.org/video/2014/07/10/unknown-wreck-uss-peterson
				1				This information is being sought on behalf of CBS News 60 Minutes for dissemination to the general public.
1				l		l		If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions
1				1				of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course,
1				l		l		reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.
				1				As I am making this request as a journalist and this information is of timely value, I would appreciate your
1				l		l		communicating with me by telephone, rather than by mail, if you have questions regarding this request.

								Matt, I would recommend submitting a request under the Freedom of Information Act to PEO Carriers for the load line curves and see what I can do. There is the issue of the ship still being in commissioned as the defueling proceeds in the next year and until the spring of 2016. I will verify with our security personnel to determine the level for release of documents in the future for these types of projects. Appreciate your interest in the good ship Enterprise and look forward to seeing what we might be able to accomplish in this effort. V/r,

								CAT I: Naval Aviation Aircraft Accident Report, accident occurred 31 August 1968 aboard the USS Hancock CV-19
								CAT II: John E. Bartocci crashed during a night carrier landing, was attached to VF-24 flying an F-8 Crusader.
								Other Details: I knew John, and witnessed the accident after it had happened. The aircraft broke in front of the wing, the front part of the fuselage with John went over the side, he was lost. The aircraft from the wings aft had caught an arresting wire and remained in the landing area. I never did learn what happened to cause the accident.
								REQUEST: I would like to know the specifics of what the accident report determined was the circumstances that caused the accident.

								We are writing to request documents be released under the Freedom of Information Act. Specifically, we request all information pertaining to all Navy and Marine Corps aviation assets which are contained within the Visibility and Management of Operating and Support Costs (VAMOSC) database and associated files. This includes but is not limited to costs categorized as organizational, intermediate, depot, training support, recurring investment, other functions, and contractor logistics support. We request this information for all types of aircraft contained within the database as well as data related to flying hours for those aircraft. We would prefer to receive the exact spreadsheets/charts containing all costs related to each aircraft for all years contained in the database. However, if it is deemed that certain line items, systems or years are not releasable, we request that the remainder of the data be released. We understand government labor is required to review information for releasability and are prepared to reimburse the Department for the time spent processing this request. Our organization is prepared to pay up to \$500 to cover the costs of review in entirety. If the Department deems the review would incur costs beyond that figure, please contact us at the address below and we would be willing to consider additional fees. We request that the information be reviewed and its releasability determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the statutory 20 working determined within the s

DON-NAVY-2014-007470	Request	Booz Allen Hamilton	07/09/2014	07/09/2014	TBD	10/09/2014	Closed	We request a full copy of Navy Contract# N62590-14-MP001FW We have limited ability to access all Navy Contracts on FedBizOps and EDA and we need to verify if the correct scope/specifications for the contract was followed on behalf of our Government client. We need to verify if the proper distances (spacing) were followed IAW the contract requirements for concrete pads poured by the contractor required for proper Antenna mounting and spacing. Without the full contract specifics, we cannot determine who is at fault for pouring the bases 6 meters apart versus the required 9 meters. Dear Department of the Navy,
								Pursuant of the Freedom of Information Act, I request an electronic copy of the three most recent operational reactor safeguards exam reports for the USS San Juan.
								I am trying to understand more about why its former Commander (5) (6) was relieved from duty June 5, 2014 and reassigned. I understand that the USS San Juan had failed to pass inspection about three times and that this was the reason (1) (6) was relieved but I am looking for reports that document this.
								I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$25. However, please notify me prior to your incurring any expenses in excess of that amount.
								If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.
								As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by email if you have questions regarding this request.
								Thank you for your assistance.

								"U.S. personnel accustomed to drinking their coffee on the drive to work will have to put that habit on hold for
								about a month. It's one of a few lifestyle changes Americans will have to make during the holy month of
								Ramadan.
								Ramadan is the ninth month of the Islamic calendar. Officials expect Ramadan to begin at sunrise on
								Saturday, depending on when the new moon is sighted. The holy month lasts for approximately 30 days —

			,	 			1	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all records pertaining to Rear Admiral John Spinning Phillips, U.S. Navy (RET).
				 				Admiral Phillips was born February 28, 1895 in Alexandria, Virginia. He attended the Naval Academy and graduated in the Class of 1918. He retired from the Navy in 1947 and passed away in 1975. His social security number is XXXXXXXXXX.
								As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information about the role of the U.S.S. Neosho in World War II that is of current interest to the public because the survival story of those U.S. servicemen is one of the few untold stories of World War II. The records I am seeking will shed light on the captain who commanded the ship and the decisions he was forced to make after it was attacked by enemy planes during the Coal Sea Battle. This information is being sought for dissemination to the general public. I am writing a book about the U.S.S. Neosho, AO23 and the men who served the United States during World War II. I am in the final stages of submitting my book proposal after years of research and interviews with men who survived the attack of their ship, as well as interviews with family members of those who died during the enemy attack.
				 				Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. This book will show how policies regarding the abandonment of a U.S. ship were changed (during or after the war?) in part because of the experiences of the men aboard the U.S.S. Neosho, AO23. The information will become available to the public when the

					1	1		I am a Navy veteran and served aboard the USS Beale DD-4/1 from 1965 to 1967. This FOIA request is
								being submitted on behalf of the USS Beale's crew of the Summer and Fall of 1966. During this period of
								time, we became involved as a Naval Gunfire Support Ship and Plane Guard Screen Ship in the waters of
								Vietnam. Currently, I am involved in conducting some research to determine exactly where we were to include
l				l	l	I		longitude and latitude. The data is included in the USS Beale DD-471 Deck Logs. The Deck Logs for July
								through October of 1966 will establish our exact locations during the period and I think may qualify our aging
								crew for Agent Orange exposure benefits. Many of our surviving crew are exhibiting classical Agent Orange
								symptoms such as urinary tract cancers and neuropathy. I have attempted to obtain the Deck Logs from The
								Naval Historical Center - Deck Logs Section without success. They inform me that unless I represent a
								government agency, they are not authorized to releasecopies to me without first filing a FOIA request.
								Further, I don't understand their reluctance to release copies of the Deck Logs as the activities I am interested
								in occurred almost 50 years ago and have long since been declassified.
								Our crew members ages range between 65 and death. Accordingly, it has become not only an important
								matter but an urgent one as well.
								I am writing this request as Secretary of the USS Beale DD/DDE-471 Association, Inc. Please note the
								Association's name include the USS Beale designations varied between 1943 and 1968. When in Vietnam it
								was DD-471. During the 1950's it was classified as DDE-471. During WW-II it was the DD-471.

								I received a RIF separation notice. I believe there are errors in the retention register. I requested to see the
				i				retention register from the point of contact in the letter, Ms. [6] [6]. The letter indicated that I had the right to review documents which were pertinent to my case including the retention register.
				ĺ				
				ĺ				5CFR351.505 states: The agency MUST allow its retention registers and related records to be inspected by:
	1			1	l	l		(1) An employee of the agency who has received a specific reduction in force notice, and/or the employee's
				ĺ				representative if the representative is acting on behalf of the individual employee. It also states they must
				ĺ				ensure that each employee's access to retention records is consistent with both the Freedom of Information
				i				Act (5U.S.C. 552), and the Privacy Act (5U.S.C. 552a). It does not state that an employee is required to
				ĺ				submit a FOIA to view the records. Since I have raised concerns regarding possible improprieties in the
				ĺ				retention register, I am being forced by Ms (6) (6) and the Navy Region Southeast Human
				ĺ				Resources Office to submit a FOIA request for information I am guaranteed by law to have access to review.
				ĺ				I am requesting access to the retention register for UICs 42237 and 48173. The retention registers were sent
				ĺ				to commands and other personnel that have not been affected without the requirement to file a FOIA. I would
				ĺ				also like a complete list of every person that has received the retention registers and a list of all personnel that
				ĺ				have been allowed to view the retention registers and a copy of their FOIA requests to see this data. I would
				i				prefer to have the retention register first since I will be separated on 23 August 2014. This information is more
				i				critical to my situation. Since I am being forced to submit a FOIA instead of the past practice of viewing

								I am looking for information pertaining to the training of two killer whales (Ahab and Ishmael) by the Navy in a project called Operation Deep Ops. The official project report was written by C. A. Bowers and R. S. Henderson of the Undersea Surveillance and Ocean Sciences Department in 1972. At this time, the National
								Technical Information Service still existed in full capacity. In October 1968, the animals were captured,
								purchased, and transferred to Point Mugu in California for preliminary exercises. (b) (6)
								involved in research on them there. They were then sent to Hawaii in January 1970. In February 1971, one whale did not respond to return calls and swam away. The project ended in September 1971, and the
								remaining orca died sometime in 1974.
								This project's findings and methods were given in the report/paper "Project Deep Ops: Deep Object Recovery
								with Pilot and Killer Whales", which has already been released. I am looking for supplementary information not covered by this paper; veterinary records, research by Dr. [6] [6] reports on the killer whales from
								Bowers, Henderson, or others involved, and information on the remaining whale's conditions between Project

DON-NAVY-2014-006032	Request		05/17/2014	05/19/2014	TBD	06/12/2014	Closed	Removed
								I would like to have my signed navy document of a waiver & or extension form that I have been told since February of 2014 that I signed back in June 2010 that enabled me to move my High Year Tenure date of June 21, 2014 to June 21, 2015 my EAOS date. I have asked my current chain of command for this document and they have failed to prove or even provide me with this document. I have checked all public records that I have access to and cannot find this document(i.e. nisps, ompf on bupers.com, paper hard copy service record). I have went to my local P.S.D. and they have had no success in finding this document. My chain of command swears up & down that I signed this document, but they have been unsuccessful in providing me with this document. The official forms are NAVPERS 1306/T Enlisted Personnel Action Request form, NAVPERS 1336/S Special Request Chit, NAVPERS 1070/621, or a REENLISTMENT/EXTENTION REQUEST FORM. These forms should be dated starting in 2010-present(2014) according to my chain of command. That should be a starting point. I would also like any forms pertaining to this subject within these years that has an actual signature(mine & whoever else preferably). I am active duty in the Navy & have been since June 2006. If you do find this document can you do something to show that it is a true & verified document/copy. If no results are found could you also give me something in writing that pertains to this, because I need to present these results to my legal counsel & chain of command. So if you could(I will be
								willing to pay extra) if no results are found, give me the results and your process and details actions notarized

DON-10AV 1-2014-003634	Request		03/13/2014	03/14/2014	IBU	00/03/2014	Guseu	I request that a copy of the following document(s) be provided to me: Unit orders for RNMCB-16 and NMCB-16. This unit was a reserve battalion called to active duty around Dec 1990 or Jan 1991. This unit was decommissioned in 1991. I specifically seek the orders for the unit to be called from reserve status to active duty in support of operation Desert Shield/Storm to include dates of duty and when it was released from duty. In order to help you determine my status for the purpose of assessing fees, you should know that I am an individual seeking information for personal use and not for a commercial use. I am willing to pay fees for this request up to a maximum of \$25.00. If you estimate that the fees will exceed this limit, please inform me first.

								This is a request under the Freedom of Information Act (FOIA), 5 U.S.C. § 552, for a clearly releasable listing
								(electronic format) of Military Sealift Command ASHORE employees. I am requesting a listing that contains
								FULL NAME, DIVISION, DEPT, BRANCH, POSITION TITLE, PAY PLAN, GRADE, POSITION OCCUPIED
								(competitive service, excepted service or temp employee). If it is your position that any portion of the
								requested records is exempt from disclosure, I request that you provide it with an index of those documents as
								required under Vaughny. Rosen, 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1972). As you are
								aware, a Vaughn index must describe each document claimed as exempt with sufficient specificity "to permit
								a reasoned judgment as to whether the material is actually exempt under FOIA." Founding Church of
								Scientology v. Bell, 603 F.2d 945, 949 (D.C. Cir. 1979). Moreover, the Vaughn index must describe each
								document or portion thereof withheld, and for each withholding it must discuss the consequences of supplying
								the sought-after information." King v.US. Dep't of Justice, 830 F.2d 210, 223-24 (D.C. Cir. 1987) (emphasis

Background - On 17 March 2014 10 (a) a Navy veteran who served on the USS Fairfax County (LST-1193), posted on the crew's Facebook page that he was doing some research on the history of the ship and located a Blog written by 10 (3) In two separate posts Ms 10 (alimed that while an E-4 (Petty Officer 3rd Class) assigned to Engine Room #1 aboard the Fairfax County in August, 1984 while the ship was in the Caribbean, she was wounded in a generator explosion, escaped but re-entered the burning space to single-handedly put out the fire, then rescued two unconscious shipmates, both African-American. She then performed CPR on one of the men, who was unresponsive and not breathing. Ms. 10 (alimed that the majority of the crew of the ship, including her chain of command, was made up of white, southern racists" who refused to help her because the men she was helping were AA. She then further claims that she personally tapped by the CO to lead efforts to restore power to the ship, barely avoiding a collision with two nearby vessels. 								Requesting supportive documents pertaining specifically to an incident that occurred on board the USS/LPH
								Okinawa during an exercise in the Hawaiian Islands. The incident occurred sometime between the first of
								December, 1986 and the second week of February 1987. The incident involved a Marine Lance Corporal of
								HMM-165, a helicopter squadron based on Ouahu. The exercise was taking place at a training area (PTA) on
								the Big Island. The squadron was making use of the Okinawa as a mid way point between PTA and Ouahu in
								transportation of numerous troops involved with the exercise. As the aircraft were staged, at times, on board
								the Okinawa, it was the assignment of certain Marines to stand deck watch duty. The assignment involved
								seeing to the security of the aircraft while they were staged on deck. The CH-46 Helicopters of HMM-165,
								when parked, have their rotors folded inward towards the fuselage of the craft. These rotor blades when folded
								inward are secured to the roof of the fuselage by a strap. The Marine on duty, when making his rounds on
								deck watch, came across a CH-46 with the rotors unsecured. Knowing his training, he responded to the
								situation and made his attempt at securing the loose rotor blade on the aircraft. As the ship was at sea, the
								waves were choppy, making it difficult. The Marine in his attempt at securing the rotor blades was struck firmly
								and squarely on his head. Minutes later, he was recovered by a corpsman and another marine on duty that
								evening. The officer on duty had the Marine examined for a concussion and instructed the Marine to keep
								awake for the remainder of the night. As the incident was considered minor, there was no mention of it on his
								medical record. The Marine was released from active duty later that year. Today the Marine is still suffering
								from headaches associated with the vertical impact of the rotor blades to his head. The impact did serious

								I contacted the ASVAB website because I believe the ASVAB scored listed in my military record are incorrect.
								I asked them if there is a way to verify the original results. They advised me this:
								Thank you for contacting us. You can verify your ASVAB scores used for enlistment by submitting a Freedom
								of Information Act (FOIA) request. Go to http://www.dod.mil/pubs/foi/foiareq.html for the form and instructions
						1		to submit the request. Once received, we recommend speaking with the Navy testing center to review your

								Dear FOR Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request an export of the database that powers the Past Performance Information Retrieval System (http://www.ppirs.gov/). I believe this request should be granted because the system's website states: "All information on this site is considered public information and may be distributed or copied unless otherwise specified." I would like to receive the information in the following format: electronic As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the performance of government contractors that is of current interest to the public because the American public should know how efficiently their tax dollars are being spent. This information is being sought on behalf of ProPublica, an independent non-profit news organization, for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Sincerely, Jeff Larson ProPublica One Exchange Plaza, 55 Broadway 23rd Floor

								This FOIA request is related to the investigation into the death of L-112, a killer whale found stranded off the coast of Washington in Feb. 2012. According to the official report (attached), the Navy was contacted and provided information to investigators looking into the death. Please provide copies of all documents, notes and correspondence collected and/or provided to investigators in this matter, including releasable files not
								submitted to outside agencies.
								Also, please add to the request all documents, notes and correspondence collected from the Royal Canadian
								Navy involving its operations off the West Coast during the days before the stranding event. This would include information submitted to individuals involved in the official investigation.
								If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions

								Good afternoon. Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request a copy of all
								command investigation reports, memos and emails related to the USS Taylor running aground Feb. 12 in the
								port of Samsun, Turkey. Additionally, I request an investigative reports, memos and emails related to the
								subsequent decision to the relief of command of Cmdr. (b) (6) , the Taylor's commander.
								As a representative of the news media, I am only required to pay for the direct cost of duplication after the first
								100 pages. Through this request, I am gathering information about an expensive mishap involving a U.S.
								military asset paid for with taxpayer dollars. Information will be disseminated to the public by Foreign Policy
								magazine.
								Release of the information is in the public interest because it will contribute significantly to public
								understanding of the military's senior leaders, and the decisions they make. If my request is denied in whole or
								part, I ask that you justify all deletions by reference to specific exemptions of the act. All segregable portions
								of the documents should be redacted and released as they become available. I reserve the right to appeal
								your decision to withhold information or deny a waiver of fees.
								As I am making this request as a journalist and this information is of timely value, I would appreciate your
								communicating with me by telephone or email, rather than by mail, if you have questions regarding this
								request.
								I look forward to your reply within 20 business days, as the statute requires.

								Re. Freedom of Information Act (FOIA Request) To Whom It May Concern:
								The following Freedom of Information Act (FOIA Request) to the US Navy is to verify published information by (b) (6) (AKA, b) (6)). I am attempting to check the veracity of statements by (b) (6) (AKA, b) (6)) that he received a certification in Naval Engineering and Damage Control from the U.S. Naval Engineering School (D.A.T.C., 1971), and a Ph.D. in Risk Management in 1999.
								Additionally, to verify if Mr. (6) (6) (AKA, (6) (6)) is a former Naval Engineering Officer; per his claim.
								Source:
								(Page 1, paragraph 3) "He also has a certification in Naval Engineering and Damage Control from the U. S. Naval Engineering School (D.A.T.C., 1971) and his Ph.D. in Risk Management in 1999."
								National Safety Management Society (NSMS), Golden Gate Chapter, meeting announcement for March 14, 2014. Thank you in advance for your time to process and provide a response.

								November 2012 I was accused to of sexual harrassment. I was coerced to waive my rights, and by doing so I
								would be awarded an Honorable Discharge. I didn't want to, but I was threatened by the CO of VQ-3 (Travis
								AFB Detachment). I was never appointed an attorney for this offense. I never saw any evidence. All I know
								was that I was accused. I want to recieve all evidence, and documents from this incident that ruined my
								career. I would like to request all records relating to the investigation surrounding the allegations of sexual
								harassment as well as the separation of (6) (6) (1/20/2012) to include results of investigations, witness
								statements, letters of transmittal, letters of notification, and any other documents supporting my separation.

								This request involves the former Mare Island base in Vallejo, CA. By way of background, in April 2001, the
								Navy and the City of Vallejo ("City") entered an Environmental Services Cooperative Agreement ("ESCA"),
								whereby the City agreed to remediate of a portion of Mare Island known as the Eastern Early Transfer Parcel
								("EETP"). The Navy agreed to pay \$77.67 million to the City to be used for the remediation. The City did not
								accept responsibility for all of the Navy's potential environmental liabilities, including natural resource
								damages, certain unknown conditions, and costs for known conditions exceeding \$114.3 million ("Navy
								Retained Conditions"). In conjunction with the ESCA, the Navy transferred title of the EETP to the City. The
								City then conveyed the EETP to Lennar Mare Island, LLC, which agreed to perform remediation required by
								the ESCA.
								I request the following documents:
								April 2011 Environmental Services Cooperative Agreement between the Navy and the City of Vallejo

								Trequest any records that were reported, filed, processed, created under the preview or Air Force Instruction 10-206
								Section 5.6 page "Reporting Instructions" states: 5.6.1. Facilities receiving CIRVIS reports will rapidly process and forward them as prescribed by NORAD Instruction 10-19.
								5.6.2. Report all unidentifiable, suspicious, or hostile traffic (land, aerospace, or seaborne), which, because of its nature, course, or actions, considered a threat to the security of the United States or Canada. Such reporting extends the early warning defense system for the United States and Canada. There are five types of CIRVIS reports:
								5.6.2.1. Issue initial CIRVIS reports while airborne (or as warranted, upon landing). 5.6.2.2. Issue post-landing CIRVIS reports if airborne reports made. 5.6.2.3. Issue follow-up CIRVIS reports by anyone with additional information about an earlier report (refer to the initial report).
								5.6.2.4. Issue cancellation CIRVIS reports once sightings are positively identified as friendly or determined it was erroneously reported. 5.6.2.5. Submit evaluation CIRVIS reports to each addressee of the above CIRVIS reports. Promptly submit evaluation reports to keep all interested parties fully informed.
								5.6.3. Report the following specific sightings: 5.6.3.1. Hostile or unidentified aircraft, which appears directed against the United States, Canada, or their forces.
								 5.6.3.2. Missiles. 5.6.3.3. Unidentified flying objects. 5.6.3.4. Hostile or unidentified military surface vessels or submarines. 5.6.3.5. Any other individual surface vessels, submarines, or aircraft of unconventional design engaged in

The anonymous chosen astronauts spent 10 months on an alien craft to get to their destination 40 light years from Earth. This journey has been documented by anonymous retired veterans involved with the project on a current intent website and recently deceased, Richard Helms, former director of Redbook publications. These astronauts returned to the earth a few stayed on Serpo and brought with them extensive photos and documentation of their lives on an alien world. They also were given a Yellow Book, a strange translucent device which reveals the history of the universe as depicted by this alien race. The anonymous chosen astronauts spent 10 months on an alien craft to get to their destination 40 light years from Earth. This journey has been documented by anonymous retired veterans involved with the project on a current internet website and recently deceased, Richard Helms, former director of Redbook publications. These astronauts returned to the earth a few stayed on Serpo and brought with them extensive photos and documentation of their lives on an alien world. They also were given a Yellow Book, a strange translucent device which reveals the history of the universe as depicted by this alien race. JFK approoved of this exchange but did not live to see it fulfilled; it appears he wanted this event publicized in 1965. Leonard Kasten recently published a book in APril 2013. Secret Journey to PLanet Serpo; a true accountThis book is based on some leaded information by retired military vets to the anonymous websitebut the book is very incomplete. The book states the records of this journey are located at Bolling AFB. a copy of the following documents identified to to N00253-10-X-0001: Award information, winning vendors, contract numbers, award/expiration dates, and total contract values Requests a copy of the following documents identified to N00178-04-D-4024 Order MUT2: contract, all modifications to this contract, CLINS and furnished amounts, and PWS/SOW

(deceased) Request for the ROT of 19 (6) COPY OF CONTRACT DOCUMEN TATION ALL CONTRACT MODIFICATIONS AND EXTENSIONS The records I am seeking are from an astronaut exchange conducted from 1965 to 1978 between the US Government and an alien race located on Planet Serpo in the Zeta Reticulum Constellation. The anonymous chosen astronauts spent 10 months on an alien craft to get to their destination 40 light years from Earth. This journey has been documented by anonymous retired veterans involved with the project on a current internet website and recently deceased, Richard Helms, former director of Redbook publications. These astronauts returned to the eartha few stayed on Serpoand brought with them extensive photos and documentation of their lives on an alien world. They also were given a Yellow Book, a strange translucent device which reveals the history of the universe as depicted by this alien race. JFK approoved of this exchange but did not live to see it fulfilled; it appears he wanted this event publicized in 1965. Leonard Rasten recently published a book in APril 2013: Secret Journey to PLanet Serpo; a true accountThis book is based on some leaked information by retired military vets to the anonymous websitebut the book is very incomplete.
